

Jake McMahon

BUSINESS DEVELOPMENT & DATA PARTNERSHIPS · FREELANCE B2B · REMOTE

LINKEDIN.COM/IN/JAKE-MCMAHON-PRODUCT-AI · BASED IN TBILISI · ASIA, EUROPE, MENA & US TIME ZONES · SELLS INTO APAC TOO

SUMMARY

Closes unfamiliar B2B offers and builds the partner-acquisition motion around them. Personally sells \$16K-\$35K engagements, has helped close work from **\$100K/year to \$100K/month**, and can make an AI, data or regulated-product proposition clear to an operator who has not bought or sold it before.

EXPERIENCE

Head of Product Marketing & AI · *Queue, product + agency backed by Sarona Ventures*

2022 - PRESENT

- **Turned unfamiliar AI products into work clients could buy, use and renew** for monday.com, Guardio (1.5M+ users), CirclesUp, 8fig, thirdweb and NewDayUSA. Built and sold AI voice interviews and a LinkedIn audience-growth product with 25 Madison.
- **Made monday.com a durable, expanding account rather than a one-off win**, re-signing it multiple times, expanding into the monday dev GTM launch, and holding the relationship through POC changes and internal-team reshuffles.
- **Joined product, sale and delivery into one accountable commercial motion**, personally selling and closing most \$15K-\$30K engagements and contributing to the broader team's \$100K/month deal. Shipped custom AI products and repaired in-app search so the sale held up in the product.

Growth & Sales · *Flow, theuserflow.co*

2024 - PRESENT

- **Turn an initial commercial conversation into lasting, results-backed work** in a two-to-three-person team. Personally sell and close \$16K-\$35K engagements from offer through delivery and customer success; clients stay six months or more. Adapt the sale from a one-call founder to a committee or board, then carry it through legal and procurement.
- **FormDR** · changed measurement from button clicks to buyer and clinician progress, separating the two groups so sales, CS and product worked from the same picture. Competitor findings and 60 sales calls made the roadmap and churn conversation specific, with no PHI in events.
- **Scale Insights** · replaced hand-built reporting with governed definitions and corrected over-counting, so activation and funnel decisions became trustworthy.
- **DialMyCalls** · gave a product with no behavioural view its first reliable baseline, smoothing US 10DLC onboarding and revealing the missing segmentation blocking attribution and churn work for two-thirds of active users.
- **Timelines AI** · made core-integration changes measurable and validated them through A/B tests that the client credits with a six-figure revenue lift.

OUTBOUND MACHINERY

- **Build contactable partner pools, not lists of names**, through qualification, verification and email-validation pipelines using monid, treg, AI Ark, BounceBan, maps data and residential proxies.
- **Convert a target market into live conversations at scale** with ListKit or custom builds, LinkedIn automation, warmed domains, campaign management and cold calling through Zadarma.
- **Carry a commercial case through to signature** by building sales decks, negotiating, drafting and finalizing contracts, including investor and M&A marketing for European and MENA clients.

EXPERIENCE

Head of Growth & Interim CTO · *HackingHR*

2024 - 2025

- **Took a top-five community to the #1, fastest-growing HR community on LinkedIn**, growing it from 800K to 1M+ followers, lifting email opens from 18% to 35-50%, redesigning the LMS experience and generating \$300K in sponsorship revenue.
- **Made growth sustainable by rebuilding the operating backbone beneath it**: modernized the stack, backend and AI infrastructure for stability and uptime; cut AWS spend 30% while improving reliability; and cut churn 30% with a ranked model. Founder Enrique will vouch.

Partner-side GTM & Analytics · *Net Atelier*

2024 - 2026

- **Turned a deleted-codebase, end-of-runway rescue into a soft-launched MVP** with a competitive feature set. Gave investors a defensible route forward through a GTM strategy, three-scenario financial model and competitor view; the model landed within 8% of industry benchmarks.

SELECTED PRIOR TRANSFORMATION EXPERIENCE

Investor Relations & Marketing Lead · *Magdalena Reith & LION Private Equity Partners, Munich*

2021 - 2022

- **Turned complex financial information into narratives investors could act on**, helping startups raise from seed to Series A+. Produced investor letters for M&A and energy-project mezzanine financing, investor updates, financial reports and 70-100-page international briefs trusted by government and M&A firms.

Head of Digital Marketing & Technological Transformation · *Routleys, Launceston*

2019 - 2021

- **Modernized a 100+ year-old retailer without stopping trade or laying anyone off**, connecting ERP, inventory and CRM data through custom middleware, ETL, AWS Redshift and Lambda. The 30-person team retrained alongside the migration, improving inventory planning and delivering 20% revenue growth.

AI, DATA & REGULATORY FLUENCY

- **Can turn an operational-data opportunity into a clear business and data conversation**, with working knowledge of ML and computer-vision/robotics pipelines, Python, SQL, NLP, scikit-learn, SageMaker and PySpark.
- **Moved four brands from absent in AI answers to cited in them** through Tasq, CYE, Spikerz and Willow's AI-search programme. Starting at 0 of 57 buyer questions citing the brand, three CYE articles now rank #1.

EDUCATION

MSc, Big Data & Business Analytics · Saint Petersburg State University GSOM, 2020 - 2024. Built a payment-propensity system for a mobile-payments app, benchmarking four algorithms and reaching **0.92 AUC on 1M+ records**.

BSc, Behavioral Psychology · Swinburne University of Technology, 2013 - 2018. The psychology degree shapes the questions; the analytics degree tests the answers.

LANGUAGES & FOOTPRINT

English native · Russian B2 · based in Tbilisi · works across Asia, Europe, MENA and US time zones, and sells into APAC despite limited overlap. Remote track record: AU, AM, GE, BG, IL, TR, RO and MD.
