BUSINESS DEVELOPMENT & DATA PARTNERSHIPS · FREELANCE B2B · REMOTE

JAKE@PRODUCTQUANT.DEV · LINKEDIN.COM/IN/JAKE-MCMAHON-PRODUCT-AI · JAKEMCMAHON.XYZ · BASED IN TBILISI · ASIA, EUROPE, MENA & US TIME ZONES · SELLS INTO APAC TOO

SUMMARY

B2B partnerships lead who has closed complex work from **\$100K/year to \$100K/month**, built outbound machinery to source and qualify prospects at scale, and carried accounts from first call through delivery and renewal. Brings working fluency in AI, data, and their regulatory environment to build Toloka's data-partnerships function from zero.

THE SELLING RECORD

Head of Product Marketing & AI · *Queue, product + agency backed by Sarona Ventures*

2022-PRESENT

- Sold and closed B2B deals as part of the core team for **monday.com, Guardio (1.5M+ users), CirclesUp, 8fig, thirdweb and NewDayUSA**, spanning **\$100K/year to \$100K/month**.
- Personally sold and closed most deals at **\$15K-\$30K**; the largest broader-team deal was **\$100K/month**.
- **Re-signed monday.com multiple times**, expanded into the monday dev GTM launch, and held the account through POC changes and internal team reshuffles.
- Worked end to end across sales, product, delivery and customer success. Shipped custom AI products for monday.com, 8fig and Guardio; demand generation delivered **~300% ROI** (1.63% CTR, 8.7% conversion).

Growth & Sales · *Flow (theuserflow.co)*

2024-PRESENT

- Personally sell and close **\$16K-\$35K** engagements end to end: offer, deck, calls, close, delivery and customer success. Clients include FormDR, Scale Insights and DialMyCalls.
- Adapt the pitch to the structure holding the pen: a one-call founder decision, multi-layered committee or flat board; carry deals through legal and procurement.

OUTBOUND MACHINERY

- Built personal pipelines for list building, qualification, verification and email validation using **monid, treg, AI Ark, BounceBan, maps data and residential proxies**.
- Run **ListKit or custom builds plus LinkedIn outbound automation**, reaching tens of thousands of potential leads each month.
- Set up the full delivery stack: cold-email infrastructure, domain warm-up, sending-campaign management and **cold-calling infrastructure via Zadarma**.
- Build sales and pitch decks; negotiate, draft and finalize contracts, including investor marketing for European and MENA investors and M&A marketing.

Jake McMahon · B2B sales, outbound systems & data partnerships

AI, DATA & REGULATORY FLUENCY

- **MSc in Big Data & Business Analytics** with working knowledge of ML, computer vision, and the tooling behind CV and robotics data pipelines: Python, SQL, NLP, scikit-learn, SageMaker and PySpark.
- Own a slice of **Tasq AI GTM (AEO / GEO / SEO)**, covering AI and data regulation, how operational data becomes useful to its owner, and robotics and physical AI.
- Ran a 90-day AI-search programme across Tasq, CYE, Spikerz and Willow: **96 published pieces**, a **197-rule** quality system, and a move from **0 of 57** buyer questions citing the brand to **#1 rankings**.
- Built an **NLP pipeline analysing 100K support tickets**; A/B-tested fintech ads and landed on Facebook by a wide margin.

SUPPORTING PROOF

- **HackingHR** · Head of Growth & Interim CTO: LinkedIn **800K → 1M+**; email opens **18% → 35–50%**; AWS –30%, churn –30%; **\$300K** sponsorship. Founder will vouch.
- **FormDR** · Healthcare SaaS (HIPAA): JTBD measurement, PostHog, Chameleon churn/onboarding, Customer.io flows, 20+ competitor teardown, and a roadmap drawn from 60 recorded sales calls.
- **Net Atelier** · Investor-side rescue: directed the team to an MVP that soft-launched with a competitive feature set; board GTM deck, 30 claims checked (6 corrected), financial model within **8%** of industry benchmarks.
- **Scale Insights** · Amplitude analytics and code-generated dashboards: **2,100 lines**, **39 charts**, nine statistical tests, including nulls.
- **Timelines AI** · Analytics framework; A/B-tested changes credited with a **six-figure revenue lift**, proven statistically with Python.
- **Pace Pricing** · Pricing-tier architecture informed by JTBD and product usage, aimed at raising CLV.

EDUCATION

MSc, Big Data & Business Analytics · Saint Petersburg State University, GSOM (2020–2024). Thesis: payment-propensity prediction, **0.92 AUC on 1M+ records**.

BSc, Behavioral Psychology · Swinburne University of Technology (2013–2018).

LANGUAGES & FOOTPRINT

English native · Russian B2 · based in Tbilisi · covers Asia, Europe, MENA and US time zones, with APAC selling experience despite limited overlap. Remote work across AU, AM, GE, BG, IL, TR, RO and MD.

Worked with teams across Asia, North America, Europe, MENA and LATAM; travelled across these regions plus Australia and New Zealand.
